SUBJECT INDEX

Active control

Structural Control by Temporal Finite Elements, James M. Pitarres and George D. Manolis, AS July 89 p169-174.

Aerodynamics

Mitigation of Wind Effects on Aerospace Launch Facilities, J. A. Peterka and E. J. Turner, AS Jan. 89 p41-51.

Aerospace transport

Mitigation of Wind Effects on Aerospace Launch Facilities, J. A. Peterka and E. J. Turner, AS Jan. 89 p41-51.

Agricultural engineering

Cropland Measurement Using Thematic Mapper Data and Radiometric Model, John G. Lyon and Ibrahim H. S. Khuwaiter, AS July 89 p130-140.

Army

Strategic Defense Initiative Six Years Later in the Army, John F. Wall and Peter G. Pappas, AS July 89 p111-118.

Axisymmetry

Axisymmetric Vibrations of Reinforced Orthotropic Shallow Spherical Caps, Victor Birman and George J. Simitses, AS July 89 p155-165.

Beams

Continuum Models of Space Station Structures, John O. Dow and Stephen A. Huyer, AS Oct. 89 p220-238.

Building codes

Review of Standard Practice for Wind-Resistant Manufactured Housing, James R. McDonald and John F. Mehnert, AS Apr. 89 p88-96.

Strategies for Mitigating Damage to Metal Building Systems, Dale C. Perry, James R. McDonald and Herbert S. Saffir, AS Apr. 89 p71-87.

Strategies for Wind Damage Mitigation-Summary, Henry Liu, Earl J. Turner and Phillip L. Gould, AS Oct. 89 p176-185.

Wind Damage to Masonry Buildings, Peter R. Sparks, Henry Liu and Herbert S. Saffir, AS Oct. 89 p186-198.

Wind Design Problems with Building Structures During Construction, Robert T. Ratay, AS Apr. 89 p102-107.

Building design

Strategies for Mitigating Damage to Metal Building Systems, Dale C. Perry, James R. McDonald and Herbert S. Saffir, AS Apr. 89 p71-87.

Strategies for Wind Damage Mitigation-Summary, Henry Liu, Earl J. Turner and Phillip L. Gould, AS Oct. 89 p176-185.

Wind Damage to Masonry Buildings, Peter R. Sparks, Henry Liu and Herbert S. Saffir, AS Oct. 89 p186-198.

Buildings

Strategies for Wind Damage Mitigation-Summary, Henry Liu, Earl J. Turner and Phillip L. Gould, AS Oct. 89 p176-185.

Wind Damage to Masonry Buildings, Peter R. Sparks, Henry Liu and Herbert S. Saffir, AS Oct. 89 p186-198.

Coised form solutions

Axisymmetric Vibrations of Reinforced Orthotropic Shallow Spherical Caps, Victor Birman and George J. Simitses, AS July 89 p155-165.

Composite structures

Axisymmetric Vibrations of Reinforced Orthotropic Shallow Spherical Caps, Victor Birman and George J. Simitses, AS July 89 p155-165.

Concrete, precast

Concrete Lunar Base Investigation, T. D. Lin, Jonathan A. Senseney, Larry Dean Arp and Charles Lindbergh, AS Jan. 89 p10-19.

Concrete, prestressed

Concrete Lunar Base Investigation, T. D. Lin, Jonathan A. Senseney, Larry Dean Arp and Charles Lindbergh, AS Jan. 89 p10-19.

Concrete structures

Concrete Lunar Base Investigation, T. D. Lin, Jonathan A. Senseney, Larry Dean Arp and Charles Lindbergh, AS Jan. 89 p10-19.

Construction

Lunar Structures Generated and Shielded with On-site Materials, E. Nader Khalili, AS July 89 p119-129.

Construction materials

Lunar Structures Generated and Shielded with On-site Materials, E. Nader Khalili, AS July 89 p119-129.

Construction methods

Lunar Structures Generated and Shielded with On-site Materials, E. Nader Khalili, AS July 89 p119-129.

Strategies for Mitigating Damage to Metal Building Systems, Dale C. Perry, James R. McDonald and Herbert S. Saffir, AS Apr. 89 p71-87.

Strategies for Wind Damage Mitigation-Summary, Henry Liu, Earl J. Turner and Phillip L. Gould, AS Oct. 89 p176-185.

Wind Damage to Masonry Buildings, Peter R. Sparks, Henry Liu and Herbert S. Saffir, AS Oct. 89 p186-198.

Wind Design Problems with Building Structures During Construction, Robert T. Ratay, AS Apr. 89 p102-107.

Continuous beams

Continuum Models of Space Station Structures, John O. Dow and Stephen A. Huyer, AS Oct. 89 p220-238.

Crops

Cropland Measurement Using Thematic Mapper Data and Radiometric Model, John G. Lyon and Ibrahim H. S. Khuwaiter, AS July 89 p130-140.

Damage

Strategies for Wind Damage Mitigation-Summary, Henry Liu, Earl J. Turner and Phillip L. Gould, AS Oct. 89 p176-185.

Wind Damage to Masonry Buildings, Peter R. Sparks, Henry Liu and Herbert S. Saffir, AS Oct. 89 p186-198.

Wind Damage to Wood Frame Houses: Problems, Solutions, and Research Needs, Henry Liu, Herbert S. Saffir and Peter R. Sparks, AS Apr. 89 p57-70.

Damage prevention

Strategies for Mitigating Damage to Metal Building Systems, Dale C. Perry, James R. McDonald and Herbert S. Saffir, AS Apr. 89 p71-87.

Strategies for Wind Damage Mitigation-Summary, Henry Liu, Earl J. Turner and Phillip L. Gould, AS Oct. 89 p176-185.

Wind Damage to Wood Frame Houses: Problems, Solutions, and Research Needs, Henry Liu, Herbert S. Saffir and Peter R. Sparks, AS Apr. 89 p57-70.

Damages

Mitigation of Damages to Electric Utilities Due to High Winds, Terence M. Tracy and James R. McDonald, AS Apr. 89 p97-101.

Deformation

Thermal Effects on Very Large Space Structures, Ramesh B. Malla, William A. Nash and Thomas J. Lardner, AS July 88 p171-190.

Deserts

Cropland Measurement Using Thematic Mapper Data and Radiometric Model, John G. Lyon and Ibrahim H. S. Khuwaiter, AS July 89 p130-140.

Design criteria

Strategies for Mitigating Damage to Metal Building Systems, Dale C. Perry, James R. McDonald and Herbert S. Saffir, AS Apr. 89 p71-87.

Wind Design Problems with Building Structures During Construction, Robert T. Ratay, AS Apr. 89 p102-107.

Dynamic analysis

Space Station Structure Modal Selection Criteria, Alan K. Caserio and Robin Shepherd, AS Jan. 89 p20-40.

Economic impact

Mitigation of Damages to Electric Utilities Due to High Winds, Terence M. Tracy and James R. McDonald, AS Apr. 89 p97-101.

Electric power plants

Mitigation of Damages to Electric Utilities Due to High Winds, Terence M. Tracy and James R. McDonald, AS Apr. 89 p97-101.

Electric power transmission

Mitigation of Damages to Electric Utilities Due to High Winds, Terence M. Tracy and James R. McDonald, AS Apr. 89 p97-101.

Electrification

Active Control of Flexural Vibrations in Beams, Carl H. Gerhold and Rodney Rocha, AS July 89 p141-154.

Equivalence

Continuum Models of Space Station Structures, John O. Dow and Stephen A. Huyer, AS Oct. 89 p220-238.

Erosion

Cropland Measurement Using Thematic Mapper Data and Radiometric Model, John G. Lyon and Ibrahim H. S. Khuwaiter, AS July 89 p130-140.

Failures

Wind Damage to Masonry Buildings, Peter R. Sparks, Henry Liu and Herbert S. Saffir, AS Oct. 89 p186-198.

Wind Design Problems with Building Structures During Construction, Robert T. Ratay, AS Apr. 89 p102-107.

Feedback control

Active Control of Flexural Vibrations in Beams, Carl H. Gerhold and Rodney Rocha, AS July 89 p141-154.

Finite elements

Structural Control by Temporal Finite Elements, James M. Pitarres and George D. Manolis, AS July 89 p169-174.

Fixed structures

Mitigation of Severe Wind Damage Related to Ground Transportation Systems, Robert H. Scanlan, AS Oct. 89 p199-206.

Foundations

Concrete Lunar Base Investigation, T. D. Lin, Jonathan A. Senseney, Larry Dean Arp and Charles Lindbergh, AS Jan. 89 p10-19.

Frames

Wind Damage to Wood Frame Houses: Problems, Solutions, and Research Needs, Henry Liu, Herbert S. Saffir and Peter R. Sparks, AS Apr. 89 p57-70.

High technology

Lunar Structures Generated and Shielded with On-site Materials, E. Nader Khalili, AS July 89 p119-129.

Houses

Wind Damage to Wood Frame Houses: Problems, Solutions, and Research Needs, Henry Liu, Herbert S. Saffir and Peter R. Sparks, AS Apr. 89 p57-70.

Housing

Review of Standard Practice for Wind-Resistant Manufactured Housing, James R. McDonald and John F. Mehnert, AS Apr. 89 p88-96.

Hydrocarbons

Dependence of Lunar Bases on Phobos and Deimos, David L. Kuck, AS Oct. 89 p207-219.

Inventories

Cropland Measurement Using Thematic Mapper Data and Radiometric Model, John G. Lyon and Ibrahim H. S. Khuwaiter, AS July 89 p130-140.

Irrigation

Cropland Measurement Using Thematic Mapper Data and Radiometric Model, John G. Lyon and Ibrahim H. S. Khuwaiter, AS July 89 p130-140.

Land usage

Cropland Measurement Using Thematic Mapper Data and Radiometric Model, John G. Lyon and Ibrahim H. S. Khuwaiter, AS July 89 p130-140.

Landsat

Cropland Measurement Using Thematic Mapper Data and Radiometric Model, John G. Lyon and Ibrahim H. S. Khuwaiter, AS July 89 p130-140.

Large structures

Thermal Effects on Very Large Space Structures, Ramesh B. Malla, William A. Nash and Thomas J. Lardner, AS July 88 p171-190.

Lattices

Continuum Models of Space Station Structures, John O. Dow and Stephen A. Huyer, AS Oct. 89 p220-238.

Loads

Wind Damage to Masonry Buildings, Peter R. Sparks, Henry Liu and Herbert S. Saffir, AS Oct. 89 p186-198.

Mapping

Cropland Measurement Using Thematic Mapper Data and Radiometric Model, John G. Lyon and Ibrahim H. S. Khuwaiter, AS July 89 p130-140.

Masonry

Wind Damage to Masonry Buildings, Peter R. Sparks, Henry Liu and Herbert S. Saffir, AS Oct. 89 p186-198.

Missiles

Strategic Defense Initiative Six Years Later in the Army, John F. Wall and Peter G. Pappas, AS July 89 p111-118.

Modal analysis

Space Station Structure Modal Selection Criteria, Alan K. Caserio and Robin Shepherd, AS Jan. 89 p20-40.

Models

Cropland Measurement Using Thematic Mapper Data and Radiometric Model, John G. Lyon and Ibrahim H. S. Khuwaiter, AS July 89 p130-140.

Moon

Concrete Lunar Base Investigation, T. D. Lin, Jonathan A. Senseney, Larry Dean Arp and Charles Lindbergh, AS Jan. 89 p10-19.

Dependence of Lunar Bases on Phobos and Deimos, David L. Kuck, AS Oct. 89 p207-219.

Lunar Structures Generated and Shielded with On-site Materials, E. Nader Khalili, AS July 89 p119-129.

Structural Engineer's Concept of Lunar Structures, Philip Y. Chow and T. Y. Lin, AS Jan. 89 p1-9.

Nitrogen

Dependence of Lunar Bases on Phobos and Deimos, David L. Kuck, AS Oct. 89 p207-219.

Prefabrication

Review of Standard Practice for Wind-Resistant Manufactured Housing, James R. McDonald and John F. Mehnert, AS Apr. 89 p88-96.

Strategies for Mitigating Damage to Metal Building Systems, Dale C. Perry, James R. McDonald and Herbert S. Saffir, AS Apr. 89 p71-87.

Radiation

Thermal Effects on Very Large Space Structures, Ramesh B. Malla, William A. Nash and Thomas J. Lardner, AS July 88 p171-190.

Remote sensing

Cropland Measurement Using Thematic Mapper Data and Radiometric Model, John G. Lyon and Ibrahim H. S. Khuwaiter, AS July 89 p130-140.

Research

Strategic Defense Initiative Six Years Later in the Army, John F. Wall and Peter G. Pappas, AS July 89 p111-118.

Resources

Lunar Structures Generated and Shielded with On-site Materials, E. Nader Khalili, AS July 89 p119-129.

Risk management

Mitigation of Damages to Electric Utilities Due to High Winds, Terence M. Tracy and James R. McDonald, AS Apr. 89 p97-101.

Risks

Wind Design Problems with Building Structures During Construction, Robert T. Ratay, AS Apr. 89 p102-107.

Satellites

Cropland Measurement Using Thematic Mapper Data and Radiometric Model, John G. Lyon and Ibrahim H. S. Khuwaiter, AS July 89 p130-140.

Sensors

Strategic Defense Initiative Six Years Later in the Army, John F. Wall and Peter G. Pappas, AS July 89 p111-118.

Shape

Structural Control by Temporal Finite Elements, James M. Pitarresi and George D. Manolis, AS July 89 p169-174.

Shell structures

Axisymmetric Vibrations of Reinforced Orthotropic Shallow Spherical Caps, Victor Birman and George J. Simitses, AS July 89 p155-165.

Lunar Structures Generated and Shielded with On-site Materials, E. Nader Khalili, AS July 89 p119-129.

Slabs

Concrete Lunar Base Investigation, T. D. Lin, Jonathan A. Senseney, Larry Dean Arp and Charles Lindbergh, AS Jan. 89 p10-19.

Space exploration

Dependence of Lunar Bases on Phobos and Deimos, David L. Kuck, AS Oct. 89 p207-219.

Space frames

Space Station Structure Modal Selection Criteria, Alan K. Caserio and Robin Shepherd, AS Jan. 89 p20-40.

Space structure

Space Station Structure Modal Selection Criteria, Alan K. Caserio and Robin Shepherd, AS Jan. 89 p20-40.

Space structures

Active Control of Flexural Vibrations in Beams, Carl H. Gerhold and Rodney Rocha, AS July 89 p141-154.

Continuum Models of Space Station Structures, John O. Dow and Stephen A. Huyer, AS Oct. 89 p220-238.

Dependence of Lunar Bases on Phobos and Deimos, David L. Kuck, AS Oct. 89 p207-219.

Thermal Effects on Very Large Space Structures, Ramesh B. Malla, William A. Nash and Thomas J. Lardner, AS July 88 p171-190.

Standards

Space Station Structure Modal Selection Criteria, Alan K. Caserio and Robin Shepherd, AS Jan. 89 p20-40.

Wind Design Problems with Building Structures During Construction, Robert T. Ratay, AS Apr. 89 p102-107.

Statistical analysis

Mitigation of Severe Wind Damage Related to Ground Transportation Systems, Robert H. Scanlan, AS Oct. 89 p199-206.

Steel structures

Strategies for Mitigating Damage to Metal Building Systems, Dale C. Perry, James R. McDonald and Herbert S. Saffir, AS Apr. 89 p71-87.

Strategic planning

Strategic Defense Initiative Six Years Later in the Army, John F. Wall and Peter G. Pappas, AS July 89 p111-118.

Structural analysis

Thermal Effects on Very Large Space Structures, Ramesh B. Malla, William A. Nash and Thomas J. Lardner, AS July 88 p171-190.

Structural design

Structural Engineer's Concept of Lunar Structures, Philip Y. Chow and T. Y. Lin, AS Jan. 89 p1-9.

Structural engineering

Structural Control by Temporal Finite Elements, James M. Pitarres and George D. Manolis, AS July 89 p169-174.

Structural Engineer's Concept of Lunar Structures, Philip Y. Chow and T. Y. Lin, AS Jan. 89 p1-9.

Structures

Structural Control by Temporal Finite Elements, James M. Pitarres and George D. Manolis, AS July 89 p169-174.

Technology

Strategic Defense Initiative Six Years Later in the Army, John F. Wall and Peter G. Pappas, AS July 89 p111-118.

Temporary structures

Wind Design Problems with Building Structures During Construction, Robert T. Ratay, AS Apr. 89 p102-107.

Thermal analysis

Thermal Effects on Very Large Space Structures, Ramesh B. Malla, William A. Nash and Thomas J. Lardner, AS July 88 p171-190.

Timber construction

Wind Damage to Wood Frame Houses: Problems, Solutions, and Research Needs, Henry Liu, Herbert S. Saffir and Peter R. Sparks, AS Apr. 89 p57-70.

Time dependence

Structural Control by Temporal Finite Elements, James M. Pitarres and George D. Manolis, AS July 89 p169-174.

Transportation systems

Mitigation of Severe Wind Damage Related to Ground Transportation Systems, Robert H. Scanlan, AS Oct. 89 p199-206.

Velocity

Strategic Defense Initiative Six Years Later in the Army, John F. Wall and Peter G. Pappas, AS July 89 p111-118.

Vibration control

Active Control of Flexural Vibrations in Beams, Carl H. Gerhold and Rodney Rocha, AS July 89 p141-154.

Vibrations

Axisymmetric Vibrations of Reinforced Orthotropic Shallow Spherical Caps, Victor Birman and George J. Simitses, AS July 89 p155-165.

Water supply

Dependence of Lunar Bases on Phobos and Deimos, David L. Kuck, AS Oct. 89 p207-219.

Wind

Mitigation of Damages to Electric Utilities Due to High Winds, Terence M. Tracy and James R. McDonald, AS Apr. 89 p97-101.

Mitigation of Wind Effects on Aerospace Launch Facilities, J. A. Peterka and E. J. Turner, AS Jan. 89 p41-51.

Strategies for Mitigating Damage to Metal Building Systems, Dale C. Perry, James R. McDonald and Herbert S. Saffir, AS Apr. 89 p71-87.

Strategies for Wind Damage Mitigation-Summary, Henry Liu, Earl J. Turner and Phillip L. Gould, AS Oct. 89 p176-185.

Wind Damage to Masonry Buildings, Peter R. Sparks, Henry Liu and Herbert S. Saffir, AS Oct. 89 p186-198.

Wind Damage to Wood Frame Houses: Problems, Solutions, and Research Needs, Henry Liu, Herbert S. Saffir and Peter R. Sparks, AS Apr. 89 p57-70.

Wind Design Problems with Building Structures During Construction, Robert T. Ratay, AS Apr. 89 p102-107.

Wind forces

Mitigation of Severe Wind Damage Related to Ground Transportation Systems, Robert H. Scanlan, AS Oct. 89 p199-206.

Mitigation of Wind Effects on Aerospace Launch Facilities, J. A. Peterka and E. J. Turner, AS Jan. 89 p41-51.

Review of Standard Practice for Wind-Resistant Manufactured Housing, James R. McDonald and John F. Mehnert, AS Apr. 89 p88-96.

Strategies for Wind Damage Mitigation-Summary, Henry Liu, Earl J. Turner and Phillip L. Gould, AS Oct. 89 p176-185.

Wind Damage to Masonry Buildings, Peter R. Sparks, Henry Liu and Herbert S. Saffir, AS Oct. 89 p186-198.

Wind speed

Strategies for Mitigating Damage to Metal Building Systems, Dale C. Perry, James R. McDonald and Herbert S. Saffir, AS Apr. 89 p71-87.

Wind velocity

Mitigation of Severe Wind Damage Related to Ground Transportation Systems, Robert H. Scanlan, AS Oct. 89 p199-206.

Wooden structures

Wind Damage to Wood Frame Houses: Problems, Solutions, and Research Needs, Henry Liu, Herbert S. Saffir and Peter R. Sparks, AS Apr. 89 p57-70.

AUTHOR INDEX

Arp, Larry Dean
see Lin, T. D., AS Jan. 89, p10-19

Birman, Victor
Axisymmetric Vibrations of Reinforced Orthotropic Shallow Spherical Caps, with George J. Simitses, AS July 89, p155-165

Caserio, Alan K.
Space Station Structure Modal Selection Criteria, with Robin Shepherd, AS Jan. 89, p20-40
